ICT Center
Summer 2009
Faculty Development
Week

San Francisco
June 15-19, 2009

ICT

The National Science Foundation has provided grant funding for the [Mid-Pacific Information and Communications Technologies Center](#) to coordinate, improve and promote ICT education, with an emphasis on 2-year colleges, in northern California, northern Nevada, southern Oregon, Hawaii and the Pacific Territories.

Information and Communications Technologies ([ICT](#)) is an umbrella term, widely used outside the U.S. and in the U.N., for all rapidly converging computer, software, networking, telecommunications, Internet, programming and information systems technologies.

MPICT's 4.5 day Summer 2009 Faculty Development Week at [City College of San Francisco's Ocean campus](#), hosted by the [CNIT Department](#), will provide:

"Train the trainer" tracks to prepare faculty to teach new courses:

- Cisco Networking Academy instructor training (IT Essentials, Discovery 2 and Fast Track)
- Mobile Application Development (featuring the iPhone SDK)
- Ethical Hacking and Network Defense (to improve network security)

Pedagogical tracks to improve educational experiences:

- Scenario-Based Learning in ICT Education (by the Experiential Learning Center)
- ICT Teaching and Learning Toolkit (including hands-on with CCCConfer)

If you would like to be added to our email list, please contact us at info@mpict.org.

This event is free to qualified ICT educators, who may be eligible for **travel cost stipends**.

More information on this exciting event will be shared later. For now, **please save the dates!**
