

Flash Web Animation Online (CS74.31A)

General information

[Adobe Systems](#) offers business, creative, and mobile software solutions to help people and organizations engage with ideas and information. Its products include Acrobat (PDFs), Flash, Photoshop, Illustrator, Premiere, Fireworks and InDesign. Its many customers include enterprises, knowledge workers, creatives, designers, OEM partners, and developers worldwide. PDFs are extraordinarily widely used. More than a billion Flash technology-enabled devices have shipped worldwide; Flash Player is installed on over 98% of Internet-enabled desktops; and approximately 75% of online videos worldwide are viewed using Flash technology, making Flash the #1 format for video on the web. Adobe Dreamweaver software has a customer installed base of more than 5 million. More than 90% of creative professionals have Adobe Photoshop software on their desktops. Knowledge and skills with Adobe products are in wide demand.

[Flash Professional CS5.5](#) software is the industry-leading authoring environment for creating and delivering immersive experiences and interactive content for screens of virtually any size. It is ideal for interactive designers, graphic designers, and web designers and developers.

Course Description

An introduction to the use and implementation of Web-based animation tools. Students will use Adobe Flash to create basic vector-based animations, examine the concepts that make a quality interactive animation, complete a thorough exploration of the tools, introduce and utilize basic ActionScripting, and produce animations.

Instructor

Jeff Diamond is an Adobe Certified Flash Professional instructor and has been a Santa Rosa Junior College instructor since 1998.
